## NOTICE TO NORTH CAROLINA HEALTH CHOICE PATIENTS

This office accepts NCHC as an insurance carrier for eye health examinations, office visits for diseases of the eye and ocular emergencies.

NCHC insurance will provide a comprehensive eye health exam every (12) months.

NCHC will provide approved frames and lenses for any patient with a prescription for eyeglasses every 12 months. Patients must use all materials furnished by NCHC. No personal frames may be used in conjunction with lenses that are provided by NCHC.

Vision Square Eye Care believes all children 18 years and under should be provided with polycarbonate lenses in an effort to provide the safest possible lens for wear. If you desire a polycarbonate lens for your child and they are not in the criteria of NCHC it is your responsibility to provide your child with this product or accept the product that NCHC provides. Vision Square Eye Care will accept no liability if any physical damage occurs due to the use of state approved materials.

Please be advised that NCHC **does not** provide coverage for any services related to CONTACT LENSES. The only exception is medical necessity for extremely high powers of prescription which may be approved by special request.

I reasonably understand the above and agree to abide by the guidelines set by NCHC. NCHC will not approve payment for Retinal Photos or contact lens services (in most cases) and I understand that if I elect to have any procedure performed, I will be responsible for payment of the fees at the time of service. I also understand that I am responsible for my co-pay at the time of service.

Co-pay amounts vary and will be listed on your insurance card.

**\*All co-payments must be made before materials are ordered.**
